Yes, **I** think that people who live alone should be taken care of. New technologies are very cool, but we<sup>20</sup> don't know all things about this technologies. New sound monitoring systems can hear all our secrets and confidential information. All noises made by the resident can be detected by the<sup>50</sup> technology. I am afraid. What if I will live alone and ~~some~~ anybody will hear or see me? This technologies are<sup>70</sup> ~~is~~ very dangerous for security firms because this firms keep a lot of information which can't be talked to another people. It's all<sup>90</sup> very hard and difficult, I don't like new technologies a I want to know that I'm in safe.
